

## **“Your Representative’s Job in the U.S. Congress”**

Host’s Suggested Script for “Live” Appearance in DVD

*The CCA encourages you to add a few sentences in the opening to objectively describe your organization. Also, the CCA is happy to include exterior footage of your organization and your logo, if you would like*

Hello. I’m (Name), (Title) of (Organization Name). We are pleased to sponsor this important DVD about the essence of our democracy -- how “We the People” can most directly control our government. Our Founding Fathers thought it so important that we, as citizens, have such an access point that it is the first thing they put in our Constitution. It is the United States House of Representatives.

The Founding Fathers set it up so that a relatively small number of us citizens—the citizens in one congressional district-- have the power every other year to directly control whether our member of Congress keeps his or her job. The glimpse into Congress provided by this video suggests that the Founding Fathers succeeded brilliantly in making sure that Members of Congress are acutely aware that their constituents, you and me, are their ultimate bosses.

The ability of citizens to control their national government is as important today as ever in our nation’s history. That is why this access point needs to be widely known. Please help our democracy by spreading the word that it is the job of a Members of Congress to help their constituents “rule” their country.

Thank you and please enjoy “Your Representative’s Job in the U.S. Congress”.
